WARNING: RISK OF ELECTRICAL SHOCK

Safety precautions should always be used when operating this or any electrical appliance. Decrease the risk of electrocution, electric shock, injury or fire by reading and following all the warnings below.

Use only as described in this AKJ050GE-CA manual. To reduce the risk of electric shock, do not attempt to service the product in any way other than in the manner described in the "Cleaning & Maintenance" section of this manual.

READ ALL INSTRUCTIONS BEFORE OPERATING THE AIR PURIFIER.

- » This machine is only for home use, not used for commercial and industrial purposes
- » This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
- » This product operates at 100-240V, 50/60Hz only.
- » The method, frequency of cleaning, and necessary precautions to be taken;
- » Read the maintenance instructions before opening the appliance.
- » Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Arrange cord away from traffic area and where it will not be tripped over.
- » Do not operate the product in any greasy environment, such as in the kitchen. This product is not intended to filter oil or grease from the air.
- » Do not use the AKJ050GE-CA air purifier in bathrooms or other humid environments. Do not use near fireplaces or in areas where flammable or combustible vapors or products may exist.
- » Always unplug the power cord from the electrical outlet when the purifier is not in use, before cleaning, inserting or removing parts or before moving to another location.
- » Never run the air purifier unless it is fully assembled.
- » This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.
- » Always turn off all controls before unplugging the AKJ050GE-CA air purifier from the outlet.
- » Attempting to service the AKJ050GE-CA air purifier in any way that is not described in this owner's manual will cause the warranty to be voided and could cause serious personal injury to the user and/or result in considerable damage to the unit.
- » Do not place the cord near a heated surface.
- » If the supply cord is damaged, it must be replaced by the manufacturer, its

service agent or similarly qualified persons in order to avoid a hazard.

- » Never use the power cord to pick up, carry, drag, pull, or lift the AKJ050GE-CA air purifier. Do not pull the cord against or around sharp corners and edges. This could result in injury to the user or damage to the cord.
- » Always remove the plug from its power outlet by holding onto the plug itself and pulling gently.
- » Never pull on the cord itself to unplug it from its power outlet.
- » Use care when operating the AKJ050GE-CA air purifier by keeping all foreign objects, fingers, body parts, hair, loose clothing and jewelry away from openings.
- » Never touch the AKJ050GE-CA air purifier or its plug when your hands are wet.
- » The AKJ050GE-CA air purifier is an electrical appliance. Adult supervision is required when operating the AKJ050GE-CA in the presence of children.
- » To reduce the risk of fire or electric shock, do not use this air purifier with any solid-state speed control devices.
- » Never modify the appliances .Use only the attachments and accessories recommended by the manufacturer.

PRODUCT BENEFITS

» **4 - Stage purification process:**

- 1 Pre Filter.
- 2 HEPA Filter.
- 3 Active Carbon Filter
- 4 ION boost.

» **2 speed fan setting—lets you select the desired cleaning level.**

» **360° inlet supply enough wind flow.**

» **More than 3million/cm³ ION makes the air more pure and fresh.**

» **Filter Changing Reminding.**

SPECIFICATION

Model No. : AKJ050GE-CA

Input Voltage : AC100~240V

Frequency : 50~60Hz

Output Voltage : DC12V

Rated Power : 3.6W

Coverage Area: 5m²

Product Size: 170mm X 170mm X 216mm

Product Weight: 1.1Kg

MAIN PARTS
